Writing a scientific paper in Ecology. Taken from materials in Bio 16: Introduction to Ecology. Data Analyses and Interpretation of Results. The data you collected can now be compiled, processed, summarized with descriptive statistics and analyzed for patterns. The potential patterns, as defined by your original research hypotheses, can be investigated graphically and with inferential statistics.

Writing a scientific paper in Ecology - Dartmouth College

Data papers are a unique type of article published in Ecology, used to present large or expansive data sets, accompanied by metadata which describe the content, context, quality, and structure of the data. Metadata may contain limited statistical analysis of the data; more detailed analysis of data sets could, however, form the core of a companion article.
