Most bond investors are perfectly content buying a safer bond in the 900s, collecting a solid yield and pocketing a profit at maturity. Owning bonds is a great way to ensure you collect income, stabilize your portfolio during volatile markets and make some profits along the way. I was a bit lucky the first time I picked a stock that it worked out.

Bond Investing for Income and Capital Gains

If you buy a bond when it is first issued, when it matures you should get your money back in full, but your investment is not guaranteed, and you may get back less than you invest. Bond funds come in a variety of guises. Some funds will invest solely, for example, in a basket of government bonds, while others will focus purely on those issued by corporations and some will invest in a mixture of the two. The primary appeal of bonds is they usually provide a regular cash-beating income stream ...

Three ways to invest for income | Barclays Smart Investor

People invest in bonds for a steady income and do not usually expect growth on their investment. Their capital tends to be fairly safe, although some bonds are safer than others. The less safe a bond is perceived to be, the higher the coupon: it has to compensate investors for the risk they are taking.

How to Invest in Bonds for Income - What Investment

So if you're a higher rate or additional rate taxpayer, paying 40% or 45% tax on income in the current tax year, an investment bond can minimise your income tax bill. However, your tax bill does not disappear entirely. Instead, the tax is deferred and any additional tax due will be payable at the time you cash in the bond, or when it matures.

Investment bonds - Money Advice Service

NS&I income bonds: Income bonds are variable-rate savings products with an attractive rate of interest. The government can - and does - change the rate of interest, but it tends to be solid. You need a minimum of £500 to open account, but you can withdraw money in increments of £500 with no notice and at no penalty to your interest.
