The territorial evolution of the British Empire is considered to have begun with the foundation of the English colonial empire in the late 16th century. Since then, many territories around the world have been under the control of the United Kingdom or its predecessor states. When the Kingdom of Great Britain was formed in 1707 by the union of the Kingdom of Scotland with the Kingdom of England, the latter country's colonial possessions passed to the new state.

Territorial evolution of the British Empire—Wikipedia

Origins of the British Empire Great Britain made its first tentative efforts to establish overseas settlements in the 16th century. Maritime expansion, driven by commercial ambitions and by competition with France, accelerated in the 17th century and resulted in the establishment of settlements in North America and the West Indies.

Feature - The evolution of British #banknotes. Loomis. Read Time: 7 mins. Created: 21 January 2013. On 15th February, 1971, British currency underwent its biggest change in centuries, when the existing system (whereby pounds were divided into 20 shillings or 240 pennies) was retired. The so-called 'fsd' system - which had been in use since the Norman Conquest of 1066 - came to an end with the ringing in of decimalisation.

Abstract. The Evolution of the British Economy: Anglo-Scottish Trade and Political Union, an Inter-Regional Perspective, 1580-1750. This thesis examines the nature and extent of Anglo-Scottish trade over the course of regal and political union between 1580 and 1750. It assesses whether the Unions of 1603, 1654 and 1707 had a tangible impact upon Anglo-Scottish coastal and cross-border trade between north-eastern England (north of the Tees) and southern and eastern Scotland (east of the Moray ...
