(as a wedge or cone) narrowing - an instance of becoming narrow  
pointedness , point - the property of a shape that tapers to a sharp tip

~~Taper—definition of taper by The Free Dictionary~~

A taper haircut gradually changes your hair length, typically starting out longer at the top of the head and getting shorter as you go down to the natural hairline on the nape of the neck and sides of the head. The length of a taper can vary. You can have a really long taper (hair is longer) or a short taper (hair comes down closer to the skin).

A machine taper is a system for securing cutting tools or toolholders in the spindle of a machine tool or power tool. A male member of conical form (that is, with a taper) fits into the female socket, which has a matching taper of equal angle.. Almost all machine tool spindles, and many power tool spindles, have a taper as their primary method of attachment for tools.

~~Machine taper - Wikipedia~~

Tapered cuts are where the hair is longer at the top and then gradually gets shorter down the back and sides of the head. In a normal taper haircut, the top is left about 2-4 inches long while the rest of the hair is cut shorter.

~~Taper Vs Fade: What's The Difference? — HairstyleCamp~~

Taper =  $(dl - ds) / \text{Length}$  Taper Angle =  $\text{atan}(0.5 \times \text{Taper})$  Where, dl = Large End Dimension ds = Small End Dimension Example A 20 inch taper with small and large diameter as 5 inch and 10 inch has a taper length of 0.25 inch.

~~Taper Angle Calculation | Taper Degree Calculator~~

In summary, a taper is a gradual shortening of the hair, while a fade tends to be less gradual and much shorter. Even though there are several fade types and really only one kind of taper, both are versatile in their own right. Which one you choose depends on your personal style and the specific cut you 're getting.

## ~~Tapering—Runner's World~~

In the context of sports, tapering refers to the practice of reducing exercise in the days just before an important competition. Tapering is customary in many endurance sports, such as long-distance running and swimming. For many athletes, a significant period of tapering is essential for optimal performance. The tapering period frequently lasts as much as a week or more. This tapering means gradually reducing the exercise over a short period of time then stopping completely when leading up to c
